

## TNO Guild Meeting – February 1, 2014

Lotteries are going really well. Our biggest lottery ever just wrapped up during this meeting and the jackpot is worth 1645 gold! With over 300 tickets sold, this is really exciting because the winner is going to get a legendary weapon! The monthly/legendary lottery has been starting really slow but after we hit about 300g, it really picks up. We are going to try something new in March where TNO will fund the first 300g to bring in more participants at the start. Over time, we will take that money out and the jackpot will still go up due to ticket sales. Another thing we don't want happening is an officer winning and the lottery looking fixed. There can be a re-roll or a double jackpot the next month (everyone from the previous month would get a free ticket(s) (based on how many they bought the previous month). We are still looking at how to solve this so nothing looks fixed. This is the reason why Vlak will never participate in any lottery.

We are thinking about changing the guild treasure trove (the guild bank tab in the middle section under the community vault) to a giveaway section. We are still unclear on how we could encourage donations and have looked into a ticket system but are still unclear on that. Giveaways will vary from time to time and we are still looking for more ideas. Giveaways are always free. The current giveaway and winners can be found here: <http://gw2tno.com/giveaway>

We encourage everyone to sign up to be an officer but we really need a WvW one and another for guild missions on Thursdays. The recruitment process is going to change a little for officers. Not only do we need leadership type of qualities but you'll need to go through a few extra steps now such as an interview to make sure you have what it takes. The previous way wasn't as effective in finding quality officers and it was quite easy to become one.

Guild missions are going very smooth. Remember not to rush ahead of the officers though...this is very important so that nobody gets left behind! Not everyone is good at jumping in the guild puzzles!

It is also recommended that any newcomers to TNO register on the forums. There is a lot of useful information there and it has all the giveaway information you'll need. Please signup using your username or main characters name so we can sort out any spammers. Once you've signed up, Vlak will get you verified as soon as possible. (This is pretty obvious if you're reading the forums now but I'm still including this in the transcript because it was brought up in the meeting. You guys should help us encourage other members to signup here.)

If you have any kind of problem, question, comment, or concern, speak up! We are always looking to improve TNO.
