

**TNO Assets System** - This system was designed for greater transparency in our funding. It now hooks in to several systems including the newly formed weekly lottery.

**Weekly Lottery** - The weekly lottery system has been overhauled and integrated into our central database. Winners will now get the option of choosing the primary item (if available with remaining balance in stackables) or entirely stackables.

**Legendary Lottery** - The legendary lottery project overhaul is next on our list. We are primarily concerned with database integration. This will help improve with assets transparency. Also, drawing is today.

**Recruit-A-Friend** - A new program in tno, any member that successfully recruits 3 players using referral guidelines on our recruit-a-friend page will receive 15g commission. This program is repeatable.

**Super Shiny Christmas Giveaway** - This will be a major legendary giveaway including the items stored in our vault. We plan to include a new path making it a total of 3 paths to choose from to be entered into the giveaway. This path will be fun and an alternative to the other 2 choices given. Note, for this giveaway, previous path completions will NOT carry over. This will encourage all participants to get involved in a different way. PATH 1 revealed later today.

**New Officers** - TNO still has a few leadership roles to fill. Commanders for WvW and PvE World Events in particular. If you have an idea for an event you would like to lead, don't think you are strapped down to doing a different event. You should enjoy the events you plan to lead!

**WvW** - Making a presence in WvW would be great but its not a high priority at this point. If anyone can lead or know someone that would like to organize WvW for TNO, let us know.

**Patch day** - November 4th is the next patch day (Tuesday). Make sure you're on for TNO Tuesday and to check out the new content.
