Weekly Lottery - Is the new program a good thing? Discussion to be had on whether or not the older system is more favorable due to flavor.

Giveaway - A date will be set today for our new seasonal giveaway to be had. A lower tier legendary will be selected and thrown into the pool of other goodies in our giveaway vault (giveaway vault). One winner will win it all. Date will be June 12 (also a patch day).

Silverwastes Farm - Blackarps found a nice farming spot on the south central part of the map, between indigo and crimson. There are 2 yaks that arrive right next to each other (escorting supplies). One comes from crimson to amber. Other from crimson to indigo. Tag mordrem that spawn there with the 2 yaks that pass together. Don't stay in the bases, tag then leave for bonus chest credit. ~10g/hour rake in until breach occurs, then swap to that.
