

**Website Redesign** - Website has been redesigned with the future in mind. There is effort to improve usability, readability and helpfulness. Any ideas for improvement should be directed to Vlax. Nothing is final and it is still a work in progress.

**Rank Changes** - Recruit > Member > Premium > Scribe > Veteran > Exalted > Officer > Founder. Ranks are explained in detail about requirements, perks and permissions.

**Rebuilt Weekly Lottery** - The weekly lottery system has now been rebuilt with more automation and convenience in mind. It will auto reset every sunday morning at 12:01am PST with a random new stackable each week. Players can now buy in advance past the initial 10 tickets that is allowed each week for all future weeks. This is great because if you plan on going on vacation, play other games, or forget, you can buy say 40 tickets and be covered for an entire month. Winnings are always mailed to you in-game by Vlax.

**Guild Hall** - We have taken the Lost Precipice. Make sure to check out the armor and weapons vendor as well as not to forget your guild buff at the tavern NPC. All buildings and upgrades are still active, nothing was lost during the transfer. The transfer was mainly to let people start getting the other skins that the LP has to offer. We have no current plans to stick with one guild hall or the other. We can change at any time based on what TNO wants.

**Officer Applications** - As always, we encourage those who wish to lead the guild in any content to apply. We'd love to start some more guild events. Fashion shows, hide-n-seek in the guild hall, etc. Anyone who might enjoy this kind of thing every 1-2 weeks please consider applying for officer.

**Guild Missions** - Still buggy. Do we want to limit them to once a week for now? We'll run a poll for it. Asking also about whether we should change the times/days for missions.

**Meeting Minutes** - A reminder that we host all minutes from our meetings on the website.
